LOT 2 - Tehama Pride Dent D128 Flush

Registration Number #18475358

Sire Tehama Tahoe B767

Sire Registration Number #+*17817177

Dam Tehama Pride Dent S555

Breeder/Farm Mystic Hill Farms

Description

The newest addition to the Mystic Hill Farms genetic arsenal is a private treaty selection from the embryo transfer program at Tehama Ranch, in California. Described by one astute cattleman as being "Arguably the stoutest Tahoe daughter in America", this incredible donor cow earned her reputation and path to the donor pen the old fashioned way, she worked for it. D128 posts an impressive track record with 6@102 BR; 5@105 WR ; 4@101 YR; 4@104 RE; 4@109 IMF. Her combination of maternal merit, foot quality, carcass traits, and fertility makes her a rare find in today's industry. This will likely be the only flush opportunity offered to the public, as this female will serve as a building block for the Mystic Hill program. The Buyer is guaranteed a minimum of 6 quality embryos, with a maximum of 10 embryos, by the bull of the buyer's choice. Buyer is responsible for the cost of the semen and flush work.

Quantity: 1
