Breeder/Farm Black Locust Livestock, Michael and Rebecca Webert, Warrenton, VA,
Mike 703-906-4667, Rebecca 540-333-1019

Description

• With two boys now showing, we hesitated to sell this late October heifer because we think she has tons of potential. Out of a “never miss” cow who consistently raises one of our top calves, this heifer is sired by our senior herd sire Historian, who is a Historic son. This is now his second calf crop on the ground, and we can without a doubt say that he consistently produces calves that are sound, stand on plenty of foot and bone, have plenty of growth and are still attractive as well – and this heifer is absolutely all of those things. Take her home and show her, or simply develop her to be a front pasture cow, either way this heifer’s combination of function, style and EPDs should make a powerful female! She will sell green broke. • Sells open.
