Dam JCH Lucy 0032

Dam Registration Number 19683782

Description

An intriguing daughter of True North produced from Lucy 0032, Lot 10 runs with the best of them for desired maternal type while also ranking at the top of the breed for traits of real significance for real world cow-calf producers.

Deep from fore-rib to flank and easy-fleshing with the gorgeous wedge-shaped femininity synonymous with the Montana maternal look, Lucy 2004 occupies rare territory as she is the number 12 \$Maternal non-parent female and the only animal in the entire Angus database with her combination of \$M; top 2% PAP (-2.33); top 1% HS (-.08); top 2% HP (+18.7); and top 1% \$W (+91). Additionally, she balances a top 5% reduced MW with top 10% rankings for CED, WW and \$EN; a top 20% \$C and Claw; and a top 25% for MB.

Due to calve 3/12/2024 to Montana Jet 1271
