MUSGRAVE RARITY
 -Her son, featured at ST Genetics.

One of the most productive young females in our herd, Musgrave Blkcap McHenry 1800 is building a legacy. The dam of Musgrave Rarity who was the \$100,000 lead off bull of our 2023 production sale to ST Genetics. Rarity is in high demand with potential of being one of the widest used young sires in the breed. Her first four sons to sell as auction averaged over \$35,000 in our 2023 production sale. She has three daughters in our bred heifer set and earned a NR of 112 on her first two natural calves. This easy keeping, three year old, daughter of Colossal is the front pasture kind and we see her as a model of fertility, phenotype, and production. She's defying odds, producing progeny that have timeless pedigrees, maternal power, and cutting edge numeric value.
