--	--

The definition of what we are looking for in a superior Angus female, 1491 is in our mind one the great females we have ever bred. When you study her pedigree and stack up all the great females in her lineage, the evidence is overwhelming. Her overall maternal presence, breed character, and multi-generational track record gives her a leading role in the industry and the future of our herd. Selected in our 2022 production sale by Lott Farms, OK, as the \$90,000 valuation top selling female, 1491 caught the attention of many astute Angus breeders from around the country. She did an outstanding job on her first natural calf earning a NR of 112, while producing an ET son, Musgrave Feat 2424, who we plan on using in the next coming year. He is a powerhouse individual!
