

**Sale Name:** Embryos of Distinction

**LOT 4 - Highland Acres 5 IVF**

**Type** 5 IVF

**Sire** TERS Kodiak 206K

**Sire Registration Number** 4042365

**Dam** HA Heather 022H

**Dam Registration Number** 3754904

**Breeder/Farm** Highland Acres

### **Description**

Heather is living proof that the combination of ideal phenotype and genetic value is available every day now. Tracing back to Denver champions and physically great ones, she also delivers high STAY, high growth and a .7 EPD for Marbling, all leading to index values higher in excess of +180 for \$API and +102 for \$TI. Everyone who saw TERS Kodiak this spring found him special as well and the shape of what Gibbs 9114G Essential sons have to offer the beef business. That's why he topped the Bred for Balance sale at a more than \$100,000 purchase price. His extension of front, structure, square hip and complete type should do nothing but accentuate the phenotype that Heather possesses. Expect everything from this mating. Photos: TERS Kodiak 206K sire of the embryos. HA Finesse 801F the dam of HA Heather 022H

**Quantity:** 5
