Sire Roseda Powerball23 F091

Dam Roseda Ms Flora Divine F113

Breeder/Farm Roseda Black Angus Farm

Description

- Sells open and ready to flush.
- Selling choice between 1/2 interest in Lot 2, or full interest in Lot 3. Buyer may choose to double down the winning bid and own all of Lot 2.
- H321 is loaded with genomic excellence just like her flush sister; same incredible growth traits – WW +101, YW +180 – combined with a Marb EPD of +1.74, \$B +222 and \$C +348. The advantage she has over her sister is the improved RE @ +.75 which balances out her carcass profile, along with a more desired foot EPD score for both Claw and Angle.
- H321 is the smoother made, more extended, of the two choices, and comes in what many would describe as a more maternal, feminine look while retaining that extra rib depth and dimension.
- This is a tough choice; it will depend on what you prefer, but as stated before, either way you win!

Quantity: 1
