LOT 40 - Sitz Feat 729H- 10 units of semen

SITZ FEAT 729H

-Pictured above, Sitz Feat servicing cows

Before the spring breeding season we make an annual trip to Billings, MT, to visit the three major bull studs. It has proven to be a very important trip, visual appraisal in sire selection is critical. Orogen was our last stop on this trip and it's there we saw Sitz Feat. It was a weak in the knees experience and we knew he had to come to Pike County. This was the bull we've been looking for, everything worked - his feet are incredible, he had eye appeal to waste, a huge rear end, & more bone and stoutness than any Angus sire we've seen in a while. He has superior quality combined with great EPDs, a no holes pedigree, and an excellent disposition. After partnering with Spring Cove Ranch, ID, this incredible sire came to service cows at Musgrave Angus and begin his legacy!
