MUSGRAVE PRIM LASSIE 329

-The definition of what we are looking for in a superior Angus female, 329 is in our mind one the great females in the breed today. She really gets us excited when you study her pedigree and stack up all the great females in her lineage. Her overall maternal presence, breed character, and multi-generational track record gives her a leading role in our herd and the future of our herd. Her first son, Musgrave Rob Roy, was a \$22,000 sale highlight of our spring 2022 sale going to Buck Ridge Cattle, MO. He now ranks as one of the heaviest used sires for our 2023 calving season and we look for Rob Roy to become a sire of great influence in our future. Her dam is a maternal sister to Musgrave Prim Lassie 163, the mother of Musgrave 316 Exclusive who currently ranks #6 for breed registrations. It's with reservation that we offer these genetics, here's an opportunity bought in the future!

MUSGRAVE ROB ROY
